

DSLX

2% solution of DSLX additive mixed with diesel increases its life by 50%
Ideal for diesel circulation cleaning setups
Lowers waste generation
Reduces circulation time
No specialized equipment needed, just mix and go

Significantly reduce your diesel cleaning costs with DSLX. This diesel cleaning enhancement technology is safe, fast and provides longer equipment uptime.

REDUCES CONCERNS

DSLX reduces concerns about safety, the environment, and regulations.

LOWER COSTS

Reduces cutter stock use by increasing its load capacity. Reduces overall waste generated and yields significant savings on cutter stock costs.

EFFECTIVE AND EASY TO USE

DSLX reduces diesel circulation time while lowering waste generation. Reduces circulation time, leading to lower outage costs and increases in accuracy of timelines.

Mix with diesel or light cycle oil in circulation

AVAILABLE SIZES

55-gallon
275-gallon totes
